**PRESBYTERIAN JUNIOR
COLLEGE FOR MEN**

BULLETIN

1933 - 1934

MAXTON, NORTH CAROLINA

FORM OF BEQUEST

I give and bequeath to the Presbyterian Junior College for Men, Inc., located at Maxton, N. C., the following (here describe real estate, etc., or insert \$....., or the following stocks and bonds).

Foreword

Education is not to make us seem to be greater to the world, but that the world may seem greater and richer to us.—Barbe.

The Presbyterian Junior College for Men is dedicated to the promotion of education that teaches how to make a living and how to live. We bear ever in mind the facts that we live **with** people more than we do **on** people, that we live in eternity more than we do on earth.

Special attention is called to the following features:

1. **The high scholarship of the faculty.**
2. **The liberal arrangement of courses whereby a student may take two years of practical terminal education, or the first two years of standard college work, or a combination of the two.**
3. **The provision for weak students in the extra coaching period a week, and in the supervised study hall requirements.**
4. **Physical training for all, a well balanced program suited to the adolescent youth and emerging man.**
5. **The opportunity afforded high school students to complete their junior and senior high school years under college grade facilities.**
6. **The moderate charge covering all college expenses.**

All standard requirements for Junior College work, according to the North Carolina Association of Schools and Colleges, are fully met. The Faculty, which is the most important factor, has the hearty approval of the accrediting agency and every member has demonstrated his ability as a successful instructor.

Presbyterian Junior College offers its services to the Church and State on its merits as a Christian educational institution. The highest and best interest of its patrons and students will be its chief concern at all times.

PRESBYTERIAN JUNIOR COLLEGE FOR MEN

COLLEGE CALENDAR

1933

- September 11, Monday, 8:00 P. M.—Faculty Meeting.
 September 12, Tuesday—Registration of Students.
 September 13, Wednesday, 8:30 A. M.—First Day of
 Class Work.
 September 16, Saturday, 8:00 P. M.—Reception to New
 Students by Y. M. C. A.
 November 30, Thursday—Thanksgiving.
 December 20, Wednesday, 1:00 P. M.—Christmas Vac-
 ation Begins.

1934

- January 4, Thursday, 10:30 A. M.—Chapel. College Re-
 opens.
 January 19, Friday—Mid-year Examinations Begin.
 January 27, Saturday—Mid-year Examinations Close.
 January 28, Sunday—Second Semester Begins.
 February 21, Wednesday—Founders Day.
 May 25, Friday—Final Examinations Begin.
 June 2, Saturday—Final Examinations Close.

Commencement Exercises

- May 27, Sunday, 11:00 A. M.—Baccalaureate Sermon.
 May 27, Sunday, 8:00 P. M.—Annual Sermon Before Y.
 M. C. A.
 May 28, Monday, 10:30 A. M.—Meeting of Board of
 Trustees.

Director of Physical Education

Faculty

1933-1934

R. GORDON MATHESON, JR., A. B., M. A., Acting President and Professor of English.

A. B., Presbyterian College of South Carolina, 1921; M. A., University of South Carolina, 1929; Instructor in English, City High School, Columbia, S. C., 1922-28; Assistant Professor of English, Virginia Polytechnic Institute, 1928-29; Teaching Staff of Summer Session of the Locust Grove Institute in conjunction with Camp Mishemokwa, 1927-1929; Director Camp Mishemokwa for Boys, 1927-1929; Presbyterian Junior College, 1929. Peabody College for Teachers, Summer 1931.

DOZIER H. DRINKARD, B. S., M. A., Dean of Students and Professor of Science.

B. S., Birmingham Southern College, 1927; M. A., Teachers College of Columbia University, 1929; Instructor in Science, Jones Valley High School, Birmingham, 1927-1928; Presbyterian Junior College, 1929. Columbia University, Summer 1931.

CHARLES R. HUNTER, A. B., Dean of Faculty and Professor of History and Economics.

A. B. Davidson College, 1925; Candidate for M. A. University of N. C.; Principal Minturn High School, S. C., 1925-1926; Instructor in History and Athletic Coach, Clio High School, 1926-1927. Superintendent City Schools, Elizabethtown, N. C., 1927-1929; Presbyterian Junior College, 1929. University of North Carolina, Summer 1931.

EDWIN L. KEY, B. S., M. A., Professor of Mathematics and Accounting.

B. S., North Carolina State College, 1925; M. A., George Peabody College, 1926; Advanced graduate student, George Peabody College, 1926-1927; Instructor in Mathematics, Chapel Hill High School, N. C., 1925; Research in the Teaching of History, Ellerbe High School, N. C., 1927; Instructor in Mathematics, Gaylesville High School, Alabama, 1928; Presbyterian Junior College, 1929. Peabody College for Teachers, Summer 1931.

WILLIAM McCANTS HARTIN, B. Litt., Th. M., A. M., Professor French and Latin.

B. Litt., M. A., Furman University; Th. M., Southern Baptist Theological Seminary; A. M., Johns Hopkins University; Professor of Philosophy and Greek, Carson & Newman College, 1917-1920; Professor of Philosophy and Political Science, Washington College, 1920-1921; Professor French, Bessie Tift College, 1921-1922 (Fall Semester); Assistant Professor of History and Political Science, Howard College, 1924-1929; Presbyterian Junior College, 1930.

V. A. SYDENSTRICKER, A. M., M. A., Professor Spanish and English.

A. B., Presbyterian College, 1924; University of Virginia, 1927; M. A., George Washington University, 1929; Instructor City High School and advanced graduate work George Washington University, 1929-1930. George Washington University, Summer 1931.

GEORGE PATRICK HENDERSON, B. S., Director Physical Education.

B. S. Davidson College, 1930. Duke Summer School 1931.

DANIEL C. CURRIE, Professor of Commerce (Supply 1933).

B. S. Davidson, 1928, Superintendent Clarkton (N. C.) Schools, 1928-30, University of North Carolina (Summer sessions) 1928-1930, University North Carolina Law School 1930-32, Superintendent Clarkton (N. C.) Schools 1932-33, Attorney-at-Law.

Assistants—Typing and Pittman—Mrs. R. G. Matheson, Smithdeal Business College 1917; University of Virginia Summer School 1919; George Peabody, Summer 1931. Typing and Gregg—Miss Marguerite McQueen, Hardbargers Secretarial School, 1928. Typing and Gregg—Miss Elizabeth Neal McNair, Lakeland Business School, 1931.

JESSE M. DALE, A. B., Th. M., Professor of English Bible.

A. B., Erskine College, 1922; Th. M. Princeton Theological Seminary, 1926; Instructor in Spanish, McCallie School, Chattanooga, Tenn., 1928; Instructor in English, Institute Preparatoriol Coyoacan, Mexico City, 1929-31; Columbia University, regular session (School of Romance Language) 1932.

O. W. FERRENE, B. S., Acting Dean of Students and Assistant Professor of Science.

B. S., Presbyterian College, 1931; Instructor in Science and Athletic Coach, Luverne, Ala., 1931-32; Furman University, Summer 1932.

R. C. HOLLAND, B. S., Coach in Major Sports.

B. S., State College, three letter man. One year professional football, six years professional baseball.

ADMINISTRATION BUILDING

History

On September 28, 1927, the Trustees of the Elise High School presented an overture to the Presbytery of Fayetteville, asking for authority to set in motion an effort to establish a Junior College in connection with that institution. Subsequent events indicate that this was but the crystallization of a general feeling that there was a real need in this part of the Lord's vineyard for such an institution. The Presbytery gave its hearty approval of the idea contained in the overture in the following resolution: "That we recognize the need of a Junior College (for men) and recommend that such an institution be established as soon as possible." A committee of five was appointed to investigate the whole question as to cost, location and the possibility of securing the co-operation of other Presbyteries in the enterprise. A similar committee was appointed by Mecklenburg Presbytery.

These committees held a two-day joint conference studying the whole question and visiting the prospective locations for the proposed school. In their report they endorsed the plan to establish a Junior College for men, recommended that an offer from the owners of the Carolina College property at Maxton be accepted and the institution located there, and called for a joint meeting of their respective Presbyteries to hear and study the report.

The two Presbyteries met in joint session in the auditorium of the Carolina College, Maxton, November 29, 1927. After a careful consideration of the report of the committee, the following resolution was adopted: "Resolved, That this joint conference of the Presbyteries of Fayetteville and Mecklenburg, recommend to the Synod of North Carolina the establishment of a Junior College for Men, and that Synod accept the generous offer of the Methodist Conference of North Carolina of the Carolina College property at Maxton for that purpose."

The Synod of North Carolina met in special session in the auditorium of the Carolina College on February 21, 1928, to consider these recommendations. After a full discussion of the whole question the following resolution was adopted: "That it is the sense of this body that the Synod of North Carolina should establish within its bounds a Junior College for Men." The offer of the Methodist Conference of North Carolina was accepted and the following resolution creating the Presbyterian Junior College for Men was adopted:

NOW THEREFORE, be it resolved:

First: That the said Synod of North Carolina, now in special session in Carolina College auditorium, Maxton, N. C., on this 21st day of February, 1928, in response to said call, and said call having been found in due form, and notice of same having been mailed more than fifteen days prior to this date, does hereby accept the offer of the Trustees of Carolina College to transfer their plant in the town of Maxton to such corporate body as may be hereinafter named and provided for, upon the payment of the sum of approximately \$35,000, said property to be used and operated as a Junior College for men, under the beneficial ownership and control of the Synod of North Carolina, Presbyterian Church in the United States, it being understood that said plant consists of about 18½ acres of land upon which is located an administration building, dormitory, president's home and other smaller buildings, together with all equipment as scheduled in their inventory; that a Board of Trustees consisting of 18 members, one Trustee from each Presbytery and nine Trustees at large, shall be elected at this meeting; that said Trustees shall be divided into three classes, whose terms shall expire as follows: Six in the Fall of 1929; six in the Fall of 1930, and six in the Fall of 1931; and all vacancies in the Board of Trustees caused by expiration of terms, resignation or otherwise, shall be filled by the Synod; that said Trustees, when elected, are hereby authorized, empowered and directed to pro-

cure a charter under the laws of the State of North Carolina, for the "Presbyterian Junior College for men," which shall be the name of the institution, and which shall be owned by the Synod of North Carolina, and controlled by it through the Board of Trustees; and said Trustees shall acquire a good and perfect title to the aforesaid property, without limitations or restrictions, taking title in the name of the Presbyterian Junior College for Men; that said Trustees are further authorized to provide for the payment of the amount necessary to be paid for said property, such funds to be obtained by them in such manner as they may deem expedient, whether by solicitation from individuals, or by negotiating loans upon the property itself as security, and to execute and deliver any and all notes, bonds, deeds of trust, or other legal instruments for such sums as may be necessary to complete the transfer of property hereinbefore authorized; that it is contemplated by the Synod, and power and authority are hereby granted to said Trustees to initiate and carry forward plans to the end that a Junior College for Men shall eventually be opened, established and operated at Maxton, under the control of the Synod of North Carolina, which shall be for the glory of God and a blessing to mankind; that said Board of Trustees shall make a written report to the next stated meeting of the Synod."

CONTROL

PRESBYTERIAN JUNIOR COLLEGE FOR MEN, INCORPORATED, is the legal name of the institution. It is owned by the Synod of North Carolina, Presbyterian Church of the United States. The governing body is a Board of Eighteen Trustees elected by the Synod and distributed as follows: One from each of the nine Presbyteries and nine "at large."

Location

Presbyterian Junior College is located in Maxton, North Carolina, forty miles from Pinehurst, on S. A. L. (Wilmington and Charlotte) and the A .C. L. (Columbia and Fayetteville) railroads, and on Route 20, between Laurinburg and Lumberton, and on Route 71, twelve miles from Red Springs and Flora Macdonald College.

Maxton is a town known for its culture and deep religious life. Three denominations are represented by well organized and progressive churches, Presbyterian, Methodist and Baptist. The surrounding country is dotted with active country churches, a number of them employing full time pastors. Flora Macdonald College, an institution famous for its cultural and religious influence, is just twelve miles from the Presbyterian Junior College and connected by a hard-surfaced highway. Laurinburg, a thriving little city of four thousand inhabitants, the county seat of Scotland County, and a center of culture and refinement, is located about six miles from the College. The Presbyterian Junior College is thus happily located in the center of an environment of enterprise, culture and religious influence.

Equipment

GROUNDS

The campus of Presbyterian Junior College is spacious and beautiful. It comprises twenty-five acres, including the athletic field. The front faces on one of the residential streets of Maxton and consists of a smooth, level lawn dotted with a variety of plantings; the back is a wooded park of native dogwood, oak and long-leaf pines, the grounds gradually sloping to a brook of cool clear water. Drainage conditions are well nigh perfect, thus providing for all year round outdoor athletics. The grounds are amply large for all forms of activities.

ATHLETIC FIELD

The athletic field adjoins the College property and contains around ten acres. The soil is of a porous type and well drained, thus affording opportunity for year-round outdoor sports. Fall practice for football begins immediately after the opening date of College under the supervision of the Physical Director. A group of splendid tennis courts near the dormitory will furnish opportunity for outdoor exercises for those who do not play in the other games.

NEW GYMNASIUM

A substantial standard dimensions gymnasium, hardwood floors and scientific lighting, will be ready at the opening of school the Fall of 1933. As this catalogue goes to press the foundations have been completed and work on the main auditorium has been initiated. The contractor's plan calls for completion by April 15, 1933. This building will be the center around which a thoroughly organized intermural, minor sports, and corrective gymnastics program will be built.

BUILDINGS

ADMINISTRATION HALL—This is a handsome and commodious structure, finished in pressed brick with stone

trimmings. It contains the Administrative Offices, a large Reception Room, Library, Reading Room, and auditorium with a seating capacity of five hundred, two Laboratories, a Study Hall, eight Class rooms, a Chapel for morning exercises, a Book and Supply Room, Dining Room with capacity for one hundred and fifty, Kitchen, Store Room, besides a number of small rooms for offices, consultation rooms and special work. The furniture in these various departments is of superior quality and in accordance with standard requirements. The building is steam heated, lighted with electricity, and supplied with hot and cold water and has ample toilet facilities.

DORMITORY—This is a two-story brick structure with fifty bed rooms designed to accommodate two students to each room. A large parlor on the first floor with a big, open fireplace furnishes an ideal lounging room and gives the building a touch of home life. There are shower baths and toilets on both floors. The building is steam heated and lighted with electricity. The rooms are equipped with single beds, bureaus, tables, chairs and two closets.

PRESIDENT'S HOME—This is a substantial and comfortable two-story frame building located just off the campus. It is used as a home for the president, the upstairs being so arranged as to be available for students in case of an overflow at the Dormitory.

LIBRARY

The library contains 5,375 volumes of well selected books, and is under the supervision of a competent Librarian who will assist the students in making the best use of the library. It is fully equipped with chairs, tables and shelves. In the reading room will be found a good number of the leading dailies, and a variety of the best weekly and monthly magazines and journals.

KITCHEN AND DINING ROOM

The kitchen and dining room are located in the basement of the administration building. They are well light-

ed, comfortable rooms, fully equipped with modern facilities for preparing and serving attractive meals. An experienced and capable dietitian is to be in charge, supervising the preparation of the meals and directing the dining room service.

HEALTH

The physical welfare of the students will be given close attention at all times. An infirmary with private bath and other facilities for the best care of the sick is provided, and will be under the supervision of the Matron, who holds a Red Cross certificate for practical nursing and home care. The College Physician will give close attention to all cases of sickness. If there is any symptom of serious illness, the parents will be notified at once.

RELIGIOUS LIFE

The Presbyterian Junior College holds as its prime aim the development of Christian manhood. In working toward this goal, the harmonious development of the physical, the mental and spiritual faculties will be emphasized in every department of the institution. The faculty has been selected with this purpose in mind and each member is pledged to a sympathetic co-operation in working out this program.

Among the phases of distinctive religious instruction may be mentioned the fact that the Bible is a text-book and its study is required of all students. Chapel service will be conducted by the faculty and all students will attend. Other lines of religious training in Y. M. C. A. work and similar organizations will give the students opportunity for voluntary religious activities and training.

The churches in town are Baptist, Methodist and Presbyterian. These are served by able and consecrated pastors. Each student is required to attend church each Sabbath. The student will select his own church and will then be required to attend its Sabbath morning service. If he elects, he may visit other churches for the evening service.

Expenses

EXPENSES FOR EACH SEMESTER FOR BOARDING STUDENTS

(Eighteen Weeks, or Half of School Year)

TUITION	\$ 55.00
BOARD	81.00
DORMITORY, including light, heat, water.....	25.00
LIBRARY FEE	5.00
MEDICAL FEE, including infirmary service.....	4.00
STUDENT ACTIVITY FEE	6.00
Total for the semester	\$176.00

This will be due and payable:

On entrance at first semester	\$100.00
At middle of semester	76.00

Each student taking a Science will pay a Laboratory Fee at the beginning of the semester as follows:

For Chemistry	\$3.00
For Biology	\$3.00

EXPENSES FOR EACH SEMESTER FOR DAY STUDENTS

TUITION	\$55.00
LIBRARY FEE	5.00
STUDENT ACTIVITY FEE	6.00
Total	\$66.00

This will be due and payable as follows:

On entrance	\$36.00
At middle of semester	\$30.00

Candidates for the ministry approved by the proper church authority and sons of ministers will upon request be granted a fifty per cent discount on tuition.

A Diploma Fee of \$5.00 will be charged each graduate.

The total charges for the year will be twice the above amounts, or \$352.00 for boarding students and \$132.00 for day students. These amounts cover all EDUCATIONAL ADVANTAGES and LIVING EXPENSES, except laundry and books. The laundry will vary with each student, but will average around fifty cents per week. Books will also vary according to course taken by students, but should not amount to more than twenty dollars per year.

DAMAGE DEPOSIT

On entering the College each boarding student will be required to deposit a \$5.00 Damage Fee with the College Treasurer. Any damage done to the College property by a student will be charged to his deposit. He will be held strictly responsible for all damages done to the doors, windows, walls or furniture of the room he occupies, and all such damages will be charged to his damage fee. However, if some other student did the damage and it can be shown which student it was, the damages will be charged to his deposit. In case no damage is done, the fee will be returned to the student at the close of the session, or earlier if he should withdraw from the college.

RULES GOVERNING THE PAYMENT OF ACCOUNTS

In keeping with the practice of all well regulated colleges and in order to save the institution from the fatal consequences of allowing accounts to accumulate, the Trustees of the College have directed that the management observe the following simple rules regarding accounts:

First, That all accounts be payable on due date and are to be paid promptly.

Second, That under no circumstances will deferred payments be allowed unless the student or patron has previously made satisfactory arrangements with the management. Failure to comply with this rule will automatically bar the student from the college.

Third, That no student will be allowed to take his final examinations at end of the semester unless all his accounts for that semester have been satisfactorily adjusted.

Fourth, When concessions are granted in the matter of monthly or quarterly settlement the agreement must be kept to the letter.

Scholarships

1. 12 Trustee's Merit Scholarships—one to a school. To be given by the superintendent to worthy and needy students of ability and character. Value \$60 a year—\$30 each semester.

2. 12 Minister's Scholarships—one to a church. To be given by the minister to a worthy and needy student of ability and character. Value \$60 a year—\$30 a semester.

3. All sons of ministers and missionaries of any Protestant affiliation. Value one-half tuition—\$60 or \$55— one-half each semester.

SELF-HELP

1. Six dining room and kitchen jobs paying \$60, \$72, \$81 a year, according to duties.

2. Four sweeping jobs paying \$60 to \$81 a year, according to duties.

3. Campus maintenance jobs, paying 20c an hour, with limit of \$60 a year.

4. Four library assistant jobs paying \$60 each per year.

5. Two Chemistry and one Biology Laboratory assistants, receiving \$40 to \$60 a year according to hours.

6. One head and two assistant monitors receiving \$60 to \$81 a year according to duties.

7. Bus driver, \$81 a year.

Admission

Students may be admitted to freshman standing on the following basis:

1. A candidate must present satisfactory evidence of good moral character. The filing of an application for entrance shall be regarded as both evidence and pledge that the applicant accepts the rules and regulations of Presbyterian Junior College and agrees to abide by them.

2. Each candidate must apply on a regular blank furnished by the college and pay a regular fee of five dollars, returnable in case the application is not accepted.

3. The applicant must present evidence of graduation from a state accredited high school, or of passing the state high school college entrance examination for graduates of non-standard high schools.

4. Students of more than 21 years of age giving evidence of intelligence and aptitude will be registered as Special Students. In some cases they may make up high school deficiencies and be granted diplomas.

For entrance into the Standard College Course, the units of high school work should conform to the following schedule:

A. B.

English	3
Mathematics	2½
Foreign Languages	2
History	1
Science	1
Electives	5½
	15
Total	15

B. S.

English	3
Mathematics	2½

Foreign Languages	2
History	1
Science	1
Electives	5½
	<hr/>
Total	15

ADMISSION TO ACADEMY

The applicant for entrance into this department must furnish evidence that he has completed sufficient units of high school work to entitle him to enter the tenth grade.

GUIDANCE

The college through the faculty gives to each student any possible assistance in the way of guidance both religious and education. Each freshman upon entering will be assigned to a member of the faculty who will be his adviser in all matters relating to his college activities and personal problems.

The Dean will give official and expert advice to all students intending to enter professional schools at the completion of their junior college course.

The Dean of Students lives in the Dormitory with the boys, and directly supervises them in the study hour and in the various adjustments necessary to young men in college dormitory.

Courses of Study

Pre-Professional

Presbyterian Junior College offers the first two years of standard A. B. and B. S. degrees, preparing a student for entrance into the leading universities and colleges of the South. Our Standard College course with slight variations fits for the following professions:

MINISTRY

A student preparing for the ministry should take the language requirements of the senior college to which he intends to go and should largely follow the recommendations of the theological seminaries in the choice of his electives.

TEACHING

The State Department of North Carolina has asked us to stick to the four-year plan of teacher training, which means that we give the first two years but do not attempt to give certificates for the short course. Too many ill-prepared teachers are now finding it hard to get jobs for us to have to defend this conservative position in any way whatsoever.

ENGINEERING

Students with a Standard Junior College Diploma enter engineering schools in this State academically and culturally fitted to complete all except the most rigorously technical courses in two years. In some cases it is advisable for some students to take one summer school between junior college and senior college in order to get engineering physics or other extremely specialized courses.

DENTAL

One year at Presbyterian Junior College for students who offer one year in the high school physics, prepares them for unconditional entrance into the leading dental schools of the South. Some dental schools recommend two years, practically all of them accept one year students.⁶

LAW

The standard B. S. Course with variations to suit the law school of the applicant's choice fits for the first two years of the pre-law course as given by the leading colleges and universities, who follow the recommendations of the American Bar Association. It is sometimes advisable where a student is contemplating short-cut methods for him to look carefully into the matter before taking this course.

MEDICINE

The pre-med course should be validated at a senior college before an attempt is made to enter medical school. The leading medical schools in the country are refusing students with only two years of pre-med training, except in cases where the student is mature and has experience fitting him for responsibility.

BUSINESS AND SECRETARIAL

Completion of the entire requirements of the business administration adequately fits an ambitious boy for an efficient place in the business world. No attempt is made to give technical nor highly specialized courses, but an intensely practical and at the same time cultural combination of Bible, English, Economics, Business Law, Stenography, Typewriting, Accounting, etc., gives a good foundation for the boy who is planning to go into the business world. Some students that have limited time

or funds find it possible to arrange a fairly comprehensive group of these subjects into a one year course.

MISCELLANEOUS

It has been found that a thorough preparation given in the conservative junior college curriculum gives an adequate foundation for practically any vocation. However, should it develop that such be not the case, the applicant will be advised to that effect and will be given any help possible in the choice of the specialized schools to which he should go.

Requirements for Graduation*

I. FROM THE ACADEMY

An Academy (High School) Diploma is given to students who complete, with previous high school record, a minimum of fifteen high school units. Students are advised to confer with the Dean before deciding what subjects to take, in order that they may receive such training as may be necessary to qualify them for their future educational efforts. Those who plan to enter a college should take into consideration the entrance requirements of the college they propose to enter, while those who do not plan to enter college may, with the Dean's approval, select such subjects as they desire. However, in order to graduate, the course taken must satisfy the standard requirements of the North Carolina Department of Public Instruction. Bible will be a required subject of study.

II. FROM THE COLLEGE

A Junior College Diploma with an A. A. or A. S. degree (Associate in Arts, or Associate in Science) is given to students who complete a minimum of sixty-eight semester hours of prescribed college work, subject to the system of credits and merits outlined below. A Junior College Diploma without the A. A. or A. S. degree is given to students who complete a minimum of sixty-eight hours of work, subject to the system of credits and merits outlined below. (A semester hour represents one recitation hour per week for a full semester, or half year of college work.)

* Note.—In the outlines of Requirements for Graduation and Courses of Instruction the following notations are used for clearness and brevity: A.1. for First Year Academy, (Tenth grade high school work). A.2. for Second Year Academy, (Eleventh grade high school work).

REQUIREMENTS FOR GRADUATION IN THE GENERAL COLLEGE COURSE

Freshman Class

	Credits
Bible 1	6
English 1	6
Mathematics 1 or Business Mathematics	6
German A.1, or French A. or 1, or Spanish A.1, or History C.1, or Business Law	6
Physiology and Hygiene 1	2
Electives	8
<hr/>	
Total	34

Sophomore Class

Bible 2	6
English 2	6
History 1, or 2	6
German 1, or French 1 or 2, or Economics C.2, or Spanish 1, or Science, or Accounting 1, or Government	6 or 8
Electives	10
(Typing and Stenography may count as Elective)	
<hr/>	
Total	34 or 36

The candidates for the General College Course will confer with the Dean regarding their electives and other features of arranging their courses. Certain fundamental standards of education will be kept in mind at all times, and no student will be allowed to graduate from the College with a diploma whose course of study fails to meet these standards. Students planning to take the General College Course are warned against any disposition to select what may be termed an "easy" course of study. However, any student in this course desiring a special course may submit his case to the faculty, and if approved, will be, upon completion of the work outlined, granted a diploma of graduation showing the work completed.

REQUIREMENTS IN MERIT POINTS FOR GRADUATION

A system of merits and credits, as outlined below, obtains for all college diplomas given at Presbyterian Junior College.

The system of merits is based upon scholastic attainment as follows: For a mark of 90-100, nine merits per course hour are given; for a mark between 80-89, six merits per course hour; for a mark of 70-79, three merits per course hour; for a mark of 60-69, no merits are given and no semester hours credit recorded; but course hours credit is allowed candidates for General College Diploma. Below 60 no credits of any kind are allowed.

For candidates for the prerequisite degrees leading to A. B. or B. S., known as Associate in Arts and Associate in Science respectively, to receive full diploma granting such degrees, he must have completed the standard courses prescribed above for such degree with full semester hours credit on all courses, and in addition average six merit points per semester hour for the entire course.

The candidates for full Junior College General College diploma must finish the full requirements for the general college courses, as prescribed above, with course hours credit on all courses, and in addition must average three merit points per course hour for the entire course.

(Stated non-technically, the A. A. and A. S. candidates must make 70 or above on all courses and average 80 to be graduated in full. The General College diploma candidates must make 60 or above on all courses and average 70 to receive a full diploma.) Students in the A. A. and A. S. courses failing to make six merit points but passing all work will be granted General College diplomas, and a transcript of their work furnished the college in which they desire to pursue their higher education. In like manner each student will be able to transfer his credits on all work of passing grade (70) to any institution at any time that he sees fit to do so. However, it is the judgment of Presbyterian Junior Col-

lege that ordinarily only those who have completed the work required for Junior College diploma in Associate in Arts or Associate in Science have the necessary scholarship for Junior Class work in a Standard College. Presbyterian Junior College therefore will not give unconditional endorsement in scholarship to graduates of this institution for entrance into the Junior Class of a Standard College unless they have completed the work for this diploma.

SCHEDULES

1. All students are expected to carry fifteen hours of college work per week, and may take as many as eighteen. Except in exceptional cases where previous record has warranted, no student will be allowed to exceed this number. No change of individual schedule will be allowed later than two weeks after the first meeting of classes.

2. For sophomore classifications, twenty-four semester hours of credit will be required. Sixty-six and two-thirds per cent of the recitations in each subject must be attended in any course upon which credit is allowed.

Courses of Instruction

I.—BIBLE

Professor Dale

Believing that a fair knowledge of the Bible is an essential part of an education, without which no man can enjoy the fullest measure of usefulness and happiness, Presbyterian Junior College places Bible Study as one of its required courses of instruction. The Bible itself is the chief textbook.

The Academy

The course will be of a general nature and will attempt to give the student a rapid survey of the historical portions of the Bible, with special emphasis on the life of Christ and the development of the Christian Church, as outlined in the Book of Acts.

The course will be required of all students in this department and will be arranged each year in such a way as to best fit into the work of that year. A credit of one high school unit will be given to students who complete a full year of five recitations per week.

The College

161-2—OLD TESTAMENT HISTORY.

This course is a careful study of Old Testament history from Genesis through the reign of Solomon. The Bible text and an appropriate syllabus will be the textbooks. Parallel reading and notes will be required. From time to time this course will be supplemented by illustrated lectures.

Three recitations a week throughout the year. Credit, six semester hours. Required of all Freshmen.

231—OLD TESTAMENT HISTORY.

This course continues the work of the freshman year and will begin with the divided kingdom of Israel and go through to the period of the New Testament. The Bible

will be the textbook, with appropriate syllabus, parallel reading, and illustrated lectures to supplement the basic work.

Three recitations a week for the first semester. Required of all sophomores.

232—NEW TESTAMENT AND EARLY CHURCH HISTORY.

The Bible, with standard Harmony of the Gospels, will form the basic work of this course. The life of Christ, the life of Paul, and the development of the early church will be the high spots in this study. Parallel reports and illustrated lectures will supplement the course throughout the year.

Three recitations a week for the second semester. Required of all sophomores.

II.—BUSINESS ADMINISTRATION

Professor Hunter

Professor Key

Professor Matheson

Professor Currie

After a student has finished all academic requirements, and upon sufficient demand, the following courses will be offered in Business Administration. The courses are elective for Freshmen in the College Department.

161-2—BUSINESS ARITHMETIC.

This course will furnish intensive drill in the fundamental operations of arithmetic and will include a study of the calculations of interest in all its phases.

Three hours a week for both semesters.

261-2—ACCOUNTING.

A fundamental course in the principles of accounting, including the meaning and purpose of accounting, the balance sheet, statement of profit and loss, accounts, etc.

Each student will be required to fill out one practice set in each semester in order to become familiar with the use of the principles learned from the textbook.

Elective for all students who have satisfied all college or high school requirements. Three hours a week throughout the year. Credit six semester hours.

261-2—GENERAL ECONOMICS.

This course aims to introduce the student to the study of economics. More specifically, it gives a broad view of all the devices and arrangements whereby civilized men make a living. Economic society is studied from the viewpoint of both structure and function. Every effort is made to encourage the student in independent thought with regard to the facts and problems of economic life.

Three hours a week for both semesters. Credit six hours. Elective.

132—PSYCHOLOGY OF SELLING.

A general survey of psychology as applied to the mind of the buyer. Business ethics, laboratory selling, and elemental office practice will be stressed as parts of the course.

Three times a week for second semester. Credit three semester hours.

161-2—BUSINESS LAW.

The elements of commercial law as applied to contracts, liability, partnership, etc. A partial study of torts is made in a thoroughly practical way. Case books, moot court, and local observation supplement the class work in this course.

Three hours a week for entire year. Required in General College Course. Six hours credit.

141-2—STENOGRAPHY.

Gregg (or upon demand Pittman) shorthand to meet first year requirements of American Association of Business Schools of America. Six hours credit when supplemented by typing to standard.

121-2—TYPING.

Supplementary to above for credit on general college or business certificate. Standard methods and speed requirements for credit.

232—BUSINESS ENGLISH.

A specialized course in business forms, letter writing, punctuation, spelling, and word choice as a terminal elective for business students and general college seniors.

Three hours a week second semester. Three hours credit.

261-2—GOVERNMENT.

Organization and activities of local, state, and national governments, party politics; economic, social, and legal factors in the functioning of government. Three hours a week for entire year. Six hours credit.

III.—ENGLISH

Professor Matheson

Professor Sydenstricker

A.1.—THIRD YEAR HIGH SCHOOL.

The initial course in English Literature and Composition will comprise Literature and Life Series III, or equivalent, and Standard Composition and Rhetoric texts. Periodical themes and parallel reading reports make this a well rounded course both as to form and content.

A.2.—FOURTH YEAR HIGH SCHOOL.

A continuation of A.1. with the addition of a rapid review of elementary grammar at the close of the term for students preparing directly for college or business school.

Five recitations a week throughout the year. Credit one unit.

131—ENGLISH COMPOSITION.

The first semester is devoted to grammar, composition

and the study of short prose types. Parallel reading and frequent composition are regularly assigned.

Three recitations a week for first semester. Four recitations a week for students weak in grammar and composition. Credit three hours. Required of all freshmen.

132—AMERICAN LITERATURE.

The second semester is devoted to a chronological survey of American Literature. Parallel reading and content themes are required at regular intervals throughout the course.

Three recitations a week for second semester.

261-2—ENGLISH AND AMERICAN LITERATURE.

A survey of English and American Literature, according to periods and types, will comprise the work of both semesters.

Three recitations a week for entire year. Required of all B. S. and A. B. sophomores.

132—SPEECH I.

During the second semester a practical course in public speaking that comprises laboratory speaking and reports of speeches as well as the psychology and organization of material for public expression.

Three recitations a week during the second semester. Credit three semester hours. Required of all students in Standard College course before graduation. Elective for students in General College course.

IV.—FRENCH LANGUAGE

Professor Hartin

1A1-2—ELEMENTARY FRENCH.

This course is designed to meet the needs of the student who enters the Freshman class with no high school units in French. It will include a careful study of grammar, composition and simple reading. It will carry no college credit.

161-2—INTERMEDIATE FRENCH.

Intended for students offering two units of French from High School. This course includes reading of Standard French texts and careful reviews of grammar and composition.

Three recitations a week throughout the year. Credit six semester hours.

261-2—ADVANCED FRENCH.

A more advanced course. Standard French works are read and analyzed as part of class assignment.

Three recitations a week throughout the year. Credit six semester hours.

V.—GERMAN**161-2—ELEMENTARY GERMAN.**

Grammar, pronunciation, dictation, reading of easy prose selections. Three hours a week throughout the session. Primarily for Freshmen. Credit six semester hours.

(Under certain conditions, German may be substituted for Latin in the Arts Degree and for the second science in the Science Degree. Students wishing to major in language are required to take German.)

261-2—INTERMEDIATE GERMAN.

Intended for students offering two units of German from High School. This course includes reading of Standard German texts and careful reviews of grammar and composition.

VI.—HISTORY

Professor Hunter

Professor Currie

A.1.—MODERN HISTORY. THIRD YEAR HIGH SCHOOL.

Standard State requirement last year and changed in only a few schools this year. This course will be offered

for A.2. (Fourth Year High School) on alternate years until the majority of the State schools change to recommended order.

Five recitations a week throughout the year. Credit one unit.

A.2.—AMERICAN HISTORY. FOURTH YEAR HIGH SCHOOL.

Standard requirement for history for State and for entrance into Southern Colleges.

Five recitations a week throughout the year. Credit one unit.

161-2—ECONOMIC HISTORY.

History of European and American Commerce and industry. The development of European commerce and industry since the fall of the Roman Empire will comprise the work of the first semester. The work of the second semester will cover the entire field of American industrial and commercial history.

Three recitations a week throughout the year. Credit six semester hours. Elective for Freshmen in General College Course, and under certain conditions for B. S. students in Standard College Course.

261-2—MODERN EUROPEAN HISTORY.

A general course dealing with the fundamental factors in modern civilization in Europe. Emphasis will be placed upon the Protestant Revolt, colonial and dynastic rivalry, the old Regime, and special emphasis will be placed upon the period from 1815 to the present time. Textbook, readings and reports.

Elective for Freshmen and Sophomores.

VII.—LATIN

Professor Hartin

Upon sufficient demand the following courses will be offered: We reserve the right to offer Latin 1 and Greek 1 on alternate years.

1A1-2—CICERO'S ORATIONS, VERGIL, GRAMMAR AND COMPOSITION.

This course is designed to meet the needs of students who do not have sufficient Latin for full college entrance. The satisfactory completion of the course admits the student to Latin 1.

Three recitations a week. Credit six hours. To secure credit towards a Standard College diploma, the student will have to complete courses 1 and 2.

161-2—INTERMEDIATE LATIN.

Cicero's *De Senectute*, selections from Livy and Ovid, and continued drill in grammar and composition.

Three recitations a week throughout the year. Credit six semester hours. Required of all A. B. Freshmen in Standard College Course. Elective for others.

261-2—ADVANCED LATIN.

Book one in Horace's "Odes, Satires and Epistles" will be studied along with selections from Cicero and Vergil. A regular period will be devoted to composition as the occasion merits.

Three recitations a week throughout the year. Credit six semester hours. Required of all A. B. Sophomores in the Standard College Course. Elective for others.

VIII.—MATHEMATICS

Professor Key

A.1.—THIRD YEAR HIGH SCHOOL.

Advanced Algebra five hours a week throughout the year. Credit one unit. Prerequisite: $1\frac{1}{2}$ units of Algebra.

A.2.—FOURTH YEAR HIGH SCHOOL.

Plane Geometry five hours a week throughout the year. Credit one unit.

131—COLLEGE ALGEBRA.

This course includes a review of the fundamentals of Algebra and an intensive study of quadratic equations,

progressions, variation, logarithms, etc. Required of all A. B. and B. S. students. Credit three hours.

132—TRIGONOMETRY.

Trigonometric functions, fundamental identities, circular measure, and the solutions of right triangles, oblique triangles, and spherical triangles will be studied. Required of all A. B. and B. S. students. Credit three hours.

261—ANALYTIC GEOMETRY.

This course includes a study of Cartesian Coordinates, curves, loci, the straight line, the circles, polar coordinates, the parabola, the ellipse, the hyperbola, coordinate transformation, the general equation of the second degree, and solid analytic geometry.

262—PRINCIPLES OF CALCULUS.

Differential and integral calculus. With course above. Credit six semester hours.

IX.—SCIENCE

Professor Drinkard

A.2.—FOURTH YEAR HIGH SCHOOL.

Chemistry. A course in Chemistry satisfying all college requirements. The ground work of chemical study is taken up and a minimum of thirty-six recorded experiments in permanent form required.

Four recitations a week including laboratory throughout the year. Credit one unit.

A.2.—FOURTH YEAR HIGH SCHOOL.

Biology. If enough students ask for it a standard course meeting N. C. State requirements. Notebook and laboratory requirements to exceed State minimum.

Four recitations a week including laboratory throughout the year. Credit one unit.

181-2—CHEMISTRY.

General Inorganic Chemistry. The principles of Inorganic Chemistry are studied and discussed in class and laboratory. The purpose of the course is to prepare the student for the more advanced study of Chemistry.

Two recitations and two laboratory periods of two hours each a week throughout the year. Credit eight semester hours. Elective for Freshmen in General College Course and B. S. Freshmen in Standard College Course.

281-2—GENERAL COLLEGE BIOLOGY.

This course is a class room and laboratory study of the fundamental questions and principles of Biology. It includes the study of the cell, differentiation, division of labor, anatomy and physiology of the organs and system, reproduction and development of the individual, genetics, classification and environmental influences on animals.

Two recitations and four hours laboratory each week. Credit eight semester hours.

121—PHYSIOLOGY AND HYGIENE.

(Repeated each semester if necessary). A study of the structure, function and care of the human body with a consideration of the individual parts, their functions and relations to each other. The following are studied and emphasized in their relationship to everyday life: Physiology of the blood, circulation, digestion and assimilation, respiration, excretion, the endocrine system, and the nervous system.

Credit two semester hours.

232—PSYCHOLOGY.

An introductory course in psychology, stressing the mechanical function and familiarizing the student with psychological terminology.

Credit three semester hours.

X.—SPANISH

Professor Dale

Professor Sydenstricker

161-2—ELEMENTARY SPANISH.

This course is designed to meet the needs of students who have not studied Spanish. It prepares for Spanish 1.

Three recitations a week. Credit six hours. Elective for all college students. However, in order to secure credit towards the Standard College diploma, Spanish 1 and 2 must be completed.

261-2—INTERMEDIATE SPANISH.

This course is open to students who have had two years of high school Spanish and those who complete 161-2 above.

Three recitations a week. Credit six hours. Elective for all students.

XI.—PHYSICAL EDUCATION

Professor Henderson

121.

All students will be required to take setting-up exercises each morning. All students will be required to take a minimum of 120 minutes of physical training each week, exclusive of setting-up exercises, unless members of a varsity squad or excused by the college physician.

MUSIC

Professor Key

It is the purpose of this department to teach the fundamentals of voice and sight-reading, and to develop in the students an appreciation of good music. The courses are non-professional, and no scholastic credit will be given.

1. VOICE—Tone-placement, breathing, enunciation and pronunciation will be taught in this course. One individual lesson and one group lesson each week. No credit. \$6.25 each quarter.

2. CHORUS—In this course the fundamentals of sight-reading will be taught. The chorus will be composed essentially of those students who are taking voice. One recitation each week will constitute the group lesson of the voice students.

3. THE GLEE CLUBS—Any student who can sing is eligible to participate in these organizations. No fee.

4. BAND INSTRUMENTS—Individual lessons will be given on all the non-reed band instruments. A small fee will be charged for each lesson.

General Requirements

One of the largest benefits the student receives from his college training is the opportunity afforded him to learn self-control, self-direction and proper regard for the rights of others. All discipline at Presbyterian Junior College is maintained with this fundamental fact in view, and is intended to aid the student in realizing these traits of strong and helpful manhood.

1. Every student is expected to be present for the opening chapel service on Wednesday morning, September 13th, at 10:30 o'clock, and to attend all college chapel services, Sabbath morning services at church, and all assignments for class periods and laboratory duty to the close of the session.

The first meal served at the College will be lunch on September 12th.

2. Students are not allowed to take "trips" beyond the College Community without permission from the Dean, or his assistant. Except in cases of emergency or by special arrangement, all requests for leave of absence must have the approval of the parent or guardian before the request will be granted. Frequent "trips" materially hinder the student's educational progress and are therefore strongly discouraged by the College. It is hoped that parents will cooperate by encouraging the student to remain with his college duties.

3. A "study" period is observed each evening after supper, except on the Sabbath. During this period the student is expected to remain in his own room and apply his time to the preparation of his class assignments. Delinquent and weak students will be placed in a supervised study group at two-weeks intervals.

4. Students desiring to borrow books from the Library will report to the Librarian, who will make proper record. Books must be returned, or a new record made, within two weeks. Reference books will not be allowed out of the Library.

5. Grading for scholarship record will be upon a scale of 100. The grade will be determined by a combination of daily recitations, monthly tests and final examinations. The passing grade will be 70. Students conditioning a subject will be allowed one re-examination on that subject. The student will be charged \$1.00 for each re-examination, which will be applied to the Library Fund. A second failure will mean that the subject will have to be taken over in class in order to get credit for it.

6. Within six weeks after the opening of the first semester a report on each student's progress will be sent to the parent or guardian. Further reports will be sent only in cases where they are requested. A term report will be sent at the end of each semester giving final grades for the semester.

The friendly cooperation of the parents in helping to keep each student's grades up to the highest possible point is earnestly sought. A kindly word of encouragement from home often works wonders with a student whose grades are too low.

7. No student shall be allowed to take part in any athletics or major student activity until he is passing nine semester hours from the beginning of the semester. No student shall be allowed to take part in more than one athletic or major student activity until he is passing an additional three semester hours for each such additional activity.

8. Rooms will not be reserved for students until their registration fee of \$5.00 has been paid. Assignment of rooms will be made in the order in which the registrations are received. All rooms are designed to accommodate two students. No student is allowed to transfer from one room to another without permission from the Supervisor.

9. Proper and manly deportment in the dining hall will be required. The Matron will be in charge and all students will be subject to her directions during the meal hour. No dormitory student will be allowed to take meals

regularly outside the college dining hall, except upon recommendation of the college physician.

10. Parents and friends desiring to call on students or faculty members will be welcomed to the College dining room for one meal, as guests of the College. But those desiring to make a visit covering a period of two or more meals will be charged the nominal fee of fifty cents for each additional meal, or one dollar per day. Arrangement and settlement for such meals should be made with the Matron.

11. For the convenience of the students, the College will operate a Book and Supply store. It will be operated on a strictly cash basis. No exceptions can be made to this rule, except by special arrangement with the parent or guardian. Student accounts will not be run.

12. Students furnish their own bed clothes, toilet articles and table napkins. We recommend that the following articles be brought. Four single sheets, one pillow and case (medium size), blankets and covers sufficient for warmth, at least four bath towels, necessary toilet articles, and a cheap rug, a runner for his bureau, and inexpensive curtains for a single window. All washable articles should be carefully marked to avoid losing in laundry. Each student will make his own arrangement for laundry service. Clothes may be sent to a good steam laundry. The agent will call at the rooms for package, or there are a number of colored laundresses in the community who will send for and return the clothes.

13. The College gladly furnishes medical treatment and care for usual cases, but will charge to parents any special prescriptions and consultant service.

14. While a damage deposit is required, it is intended to cover incidental damage only. Malicious damage is dealt with separately. Damage deposit will be credited to account for all students in arrears.

Application for Admission

TO

Presbyterian Junior College for Men

MAXTON, N. C.

I hereby make application for admission of my son or ward to the Presbyterian Junior College for Men for the school year beginning September 12, 1933, subject to the provisions and regulations published in your Bulletin of June, 1933.

Room reservation will be made upon payment of \$5.00 matriculation fee. This deposit will be held as a damage deposit for boarding students, and will be credited to account of day students.
